

# Summary report

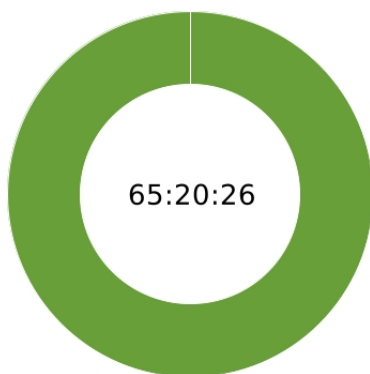

06/12/2024 - 06/14/2024

Total: 65:20:26 Billable: 65:20:26 Amount: USD0.00

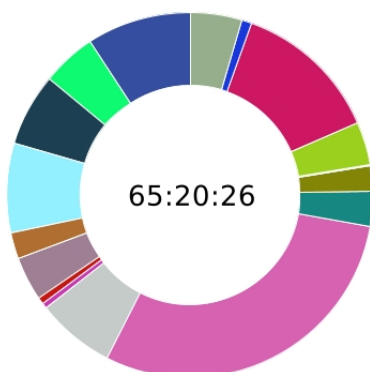

## Project

GradeFalcon	65:20:26	100.00%
-------------	----------	---------

## Description

Writing code to get login and signup pages fully functional	06:00:00	9.18%
Trying to connect express to database and build API Route	03:10:00	4.85%
#55 Implement Session Management and Creation	04:11:08	6.41%
#21 User Story: Create and Manage Classes	05:10:36	7.92%
#71 Display User Data on the FrontEnd	01:30:44	2.31%
Struggling with docker and connecting express to database	02:30:00	3.83%
Presentation	00:22:42	0.58%

● #48 Set Up Rooting	00:21:45	0.55%
● #57 Style fix .. navigation bar standardization/compatibilization (took longer due to initially learning react for this one thing)	04:30:00	6.89%
● #56 Setup Express Application with PostgreSQL Integration	19:25:37	29.73%
● Mini Presentation for the team created , team meeting (discussed implemented features , testing discussions)	02:00:00	3.06%
● React routing	01:26:46	2.21%
● Team Log and PRs	00:05:37	0.14%
● Making API routes functional	02:30:00	3.83%
● #15 User Story: Instructor Interface Development (Ported HTML/CSS into react build)	08:30:00	13.01%
● #12 User Story: Instructor Login and Authentication	00:35:31	0.91%
● Technological Research - On selenium framework to be used for testing	03:00:00	4.59%
